Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first shee	t)
This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following 1. Claims Nos.: 15 because they relate to subject matter not required to be searched by this Authority, namely:	
Claim 15 pertains to methods for treatment of the human body by and thus relates to a subject matter which this International S Authority is not required, under the provisions of Article 17(2)(the PCT and Rule 39.1(iv) of the Regulations under the PCT, to see	earching a)(i) of
2. Claims Nos.: because they relate to parts of the international application that do not comply with the prescribed requirements to sextent that no meaningful international search can be carried out, specifically:	such an
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Ru	ile 6.4(a).
Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)	
This International Searching Authority found multiple inventions in this international application, as follows:	
As all required additional search fees were timely paid by the applicant, this international search report covers all seclaims.	archable
2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payme any additional fee.	ent of
3. As only some of the required additional search fees were timely paid by the applicant, this international search report only those claims for which fees were paid, specifically claims Nos.:	t covers
4. No required additional search fees were timely paid by the applicant. Consequently, this international search restricted to the invention first mentioned in the claims; it is covered by claims Nos.:	port is
Remark on Protest The additional search fees were accompanied by the applicant's protest. No protest accompanied the payment of additional search fees.

PCT/JP2004/014896

Concerning the "basic metal ion" as described in claim 1, the case wherein the basic metal ion is supplied from a sodium phosphate such as trisodium phosphate or disodium monohydrogenphosphate is exclusively supported by the description in the meaning within PCT Article 6 and disclosed therein in the meaning within PCT Article 5.

Such being the case, the search was made on the part which is supported by the description and disclosed therein, namely, the case wherein the basic metal ion is supplied from a sodium phosphate.
